Cloudinary is a cloud-based media management platform that specializes in the storage, optimization, transformation, and delivery of images and videos. Unlike standard cloud storage providers like Amazon S3 or Google Cloud Storage—which simply hold raw files—Cloudinary acts as an all-in-one media pipeline. It uses a global Content Delivery Network (CDN) to ensure fast, optimized media delivery to end

SKILLS

- 1.
2. node
3. react
4. express
5. mongoDb
